

FIRE EVACUATION & LOCKDOWN SMS

Introducing our new dual system

- ALERTS HEARING IMPAIRED STAFF AND VISITORS IN THE EVENT OF A FIRE.
- PROTECTS STAFF, VISITORS AND PUPILS IN AN EMERGENCY LOCKDOWN SITUATION.
- MORE CONTROLLABLE LOCKDOWN PROCEDURE WITH SILENT ALARM FACILITY.
- AFFORDABLE LOW COST SOLUTION FOR BOTH FIRE AND LOCKDOWN EMERGENCIES.

KTP's Fire Evacuation and Lockdown SMS System is designed to assist all types of businesses and organisations including Councils, Universities, Colleges, Offices & Hotels with their Fire emergency evacuation and Lockdown procedures.

In the event of a fire the system alerts deaf or hard of hearing persons and key fire personnel that the fire alarm has been activated, enabling safe exit from the building. The system assists service providers and employers in complying with the current Fire Safety Legislation as well as meeting their obligations under the Equality Act.

In the event of an emergency where a Lockdown situation is required, the system will alert the dedicated personnel who are able to activate the system using a wireless remote control key fob or desk mounted panic button to set off the alert in order that the appropriate action can be taken. By utilising the systems silent alarm facility, the attacker or unwanted building occupants are less likely to panic, making the emergency situation more controllable.
